

KSC Approved AntiVirus Software

Keene State College Policies and Procedures

Approved Anti-virus for KSC Network

Overview

Students connecting to the campus network with a PC are required to install a KSC allowed antivirus software.

Note: You should have only ONE antivirus software program installed on your computer at one time. Before you install a new program, you must uninstall any anti-virus software you currently have on your system.

Windows Based Computers

- Authentium
- EZ Antivirus
- NOD32
- SpySweeper AV
- Avast
- F-Secure
- Panda
- Symantec (Norton)
