

Genocide In Darfur

Green bracelets raise awareness about the suffering of millions of innocent people in the Darfur region of Sudan.

There, government-sponsored militias are killing, raping, beating, and torturing innocent men, women and children. Tens of thousands have already died and hundreds more die daily.

The militias burn villages and have chased over 1.6 million people into the desert. Most now live in camps without enough water, food, medical care, shelter, sanitation, or safety.

Please make your voice heard. Find actions you can take on the back of this card, or visit www.savedarfur.org for more information.
