

# Petition in Support of NH *HB 1516-FN*

**AN ACT relative to the divestiture of New Hampshire retirement assets relating to Sudan.**

We call on N.H. state legislators to support *HB 1516-FN* in keeping with House *Resolution 13* (March 22, 2006) which condemned the ongoing genocide in Darfur and called for action.

As our representatives, you speak for the collective voices of us, your constituents. By putting pressure on companies complicit in genocide you will be taking decisive action to stop the violence. You will be our moral voice to New Hampshire, the United States, and the world.

We are counting on you to act in our name. We urge you to support divestiture of New Hampshire retirement assets relating to Sudan as a means to end the violence, protect the helpless, and end this genocide.
