502 Update for Construction Industry Outreach Trainers

# of Days	Times	Credits	Tuition
2.5	M, Tu: 8:30 am - 4:30 pm & W: 8:30 am - noon	1.7 CEUs 3.01 CM	\$785

PREREQUISITE: Course 500/502

Course Description: This course is designed for personnel in the private sector who have completed the 500 Trainer Course in Occupational Safety and Health Standards for the Construction Industry and who are active trainers in the outreach program. It provides an update on such topics as OSHA construction standards, policies, and regulations.

NOTE: Construction Outreach Trainers are required to attend this course once every four years to maintain their trainer status. Prior to registration, students must provide a copy of their current trainer card for validation.

Course Section	Date(s)	Day(s)	Location
NCOS-502-N3C	March 22-24 2010	Mon.-Wed.	Warwick, RI

500 Trainer Course in Occupational Safety and Health Standards for the Construction Industry

# of Days	Times	Credits	Tuition
4	8:30 am - 4:30 pm	3.0 CEUs; TCH 4.34 CM	\$885

PREREQUISITES: OSHA Course 510 and five (5) years of construction safety experience. A college degree in occupational safety and health, a Certified Safety Professional (CSP) or a Certified Industrial Hygienist (CIH) designation, in the applicable training area, may be substituted for two (2) years of experience.

Course Description: This course is designed for personnel in the private sector interested in teaching the 10- and 30-hour construction safety and health outreach program to their employees and other interested groups. Special emphasis is placed on those topics that are required in the 10- and 30-hour programs as well as on those that are the most hazardous, using OSHA standards as a guide. Course participants are briefed on effective instructional approaches and the effective use of visual aids and handouts. This course allows the student to become a trainer in the Outreach Program and to conduct both a 10- and 30-hour construction safety and health course and to issue cards to participants verifying course completion.

NOTE: Students in Course 500 who wish to participate as authorized trainers in the Outreach Program must prepare a presentation on an assigned OSHA construction Outreach topic individually or as part of a group and successfully pass a written exam at the end of the course. Authorized Outreach Trainers are required to attend Course 502 at least once every four years to maintain their trainer status.

501 Trainer Course in Occupational Safety and Health Standards for General Industry

# of Days	Times	Credits	Tuition
4	8:30 am - 4:30 pm	3.0 CEUs 4.34 CM	\$885

PREREQUISITES: OSHA Course 511 and five (5) years general industry safety experience. A college degree in occupational safety and health, a Certified Safety Professional (CSP), or a Certified Industrial Hygienist (CIH) designation, in the applicable area may be substituted for two (2) years of experience. Those registering for the OSHA 501 course must submit a resumé documenting specific general industry safety-related experience, a copy of your 511 training certificate, and a Prerequisite Verification Form along with the registration form, prior to the course start date.

Course Description: This course is designed for personnel in the private sector interested in teaching the 10-hour and 30-hour general industry safety and health outreach programs to their employees and other interested groups. Special emphasis is placed on those topics required in the 10-hour and 30-hour programs, as well as on those that are the most hazardous, using OSHA standards as a guide. Course participants are briefed on effective instructional approaches and use of visual aids and handouts. This course allows the student to become a trainer in the Outreach Training Program and to conduct both 10-hour and 30-hour general industry safety and health outreach courses and to issue cards to participants verifying course completion.

NOTE: Students in Course 501 who wish to participate as authorized trainers in the OSHA Outreach Training Program must prepare a presentation on an assigned OSHA General Industry topic individually or as a part of a group and successfully pass a written exam at the end of the course. Authorized OSHA Outreach Trainers are required to attend Course 503 at least once every four (4) years to maintain their outreach program trainer status.

7410 Managing Excavation Hazards

# of Days	Times	Credits	Tuition
1	8:30 am - 4:30 pm	0.7 CEUs	\$245

Course Description: This one-day course is designed as a training program to inform employers and employees of the best practices in trenching and excavation safety. The participant will learn about the role and responsibility of the employer to assign a "competent person" to the excavation site and provide that person with the knowledge of key excavation hazards. Topics include: understanding and application of definitions related to OSHA's excavation standard; excavation hazards and control measures; soil analysis techniques; protection system requirements, and emergency response. The program is a facilitated interactive session. Who should attend? Private sector construction employer, manager, employee, or employee representative who, as part of a safety and health program, needs to understand the requirements of a "competent person" for excavation work as described in the OSHA construction safety standards for excavations (29 CFR 1926, Subpart P). Advanced training beyond the scope of OSHA Course 7410 is available by attending the 3.5 day OSHA 3010 Course: Excavation, Trenching and Soil Mechanics.

2045 Machinery and Machine Guarding Standards

# of Days	Times	Credits	Tuition
4	8:30 am - 4:30 pm	3.0 CEUs, 4.34 CM	\$855

PREREQUISITE: Course 511. Prerequisite requirements may change, please inquire prior to registering.

Course Description: This course familiarizes the student with various types of common machinery and the related safety standards. Guidance is provided on the hazards associated with various kinds of machinery and the control of hazardous energy sources (lockout/tagout). The course presents an approach to machinery inspection that enables participants to recognize hazards and to provide options to achieve abatement. These hazards include mechanical motions and actions created by points of operation and other machinery processes.

Personal protective equipment required for field trip: safety shoes, safety glasses, and clothing appropriate for field exercise.

3095 Electrical Standards

# of Days	Times	Credits	Tuition
4	8:30 am - 4:30 pm	3.0 CEUs, TCH 3.01 CM	\$855

PREREQUISITE: Course 511. Prerequisite requirements may change, please inquire prior to registering.

Course Description: This course provides students with a survey of OSHA's electrical standards and hazards associated with electrical installations and equipment. Topics include single-phase and three-phase systems; cord-connected, plug-connected, and fixed equipment; grounding; ground fault circuit interrupters; and safety-related work practices. Emphasis is placed on electrical hazard recognition and OSHA policies and procedures. Students receive instruction on safe and correct use of their electrical testing equipment.
