

Connecting a Mac to KSC_Secure Wireless Network

Click on the airport symbol in the upper right side of the screen and you should be able to see the KSC_Secure Network.

When you connect, you should get a prompt for your Keene State College username (NetID) and password. You should leave all other selections at the defaults.

Once you click 'OK', you will get a screen regarding the 802.1x certificate authentication. Click 'continue'.

You are now connected to the KSC_Secure Wireless Network.

If you have any questions concerning this or any other technology issue, please contact the HelpDesk at 358-2532, email helpdesk@keene.edu or stop by our office on the 2nd floor of Elliot Hall.
