

Connecting Windows Vista to KSC_Student Wireless Network

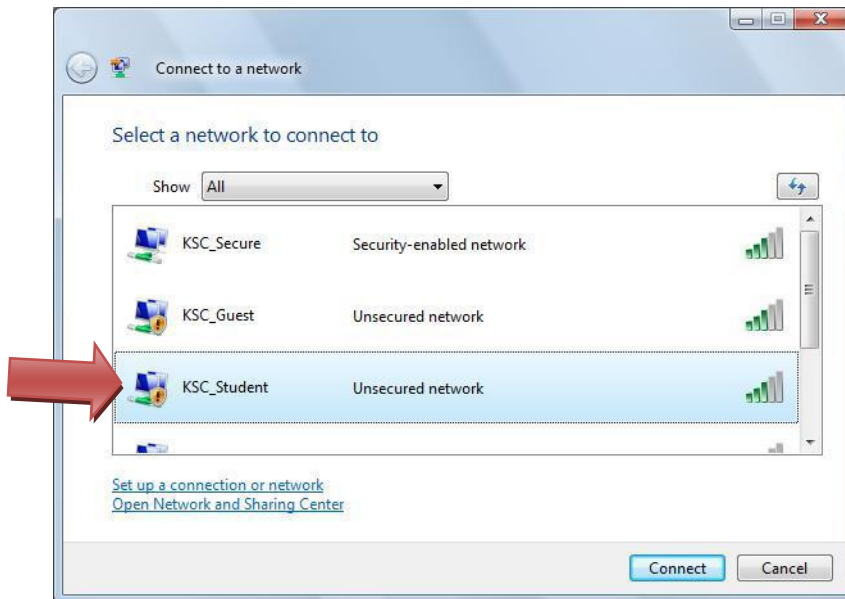

1. Go to the menu bar and click on the Windows Vista Start Button.

Click on **Connect To**

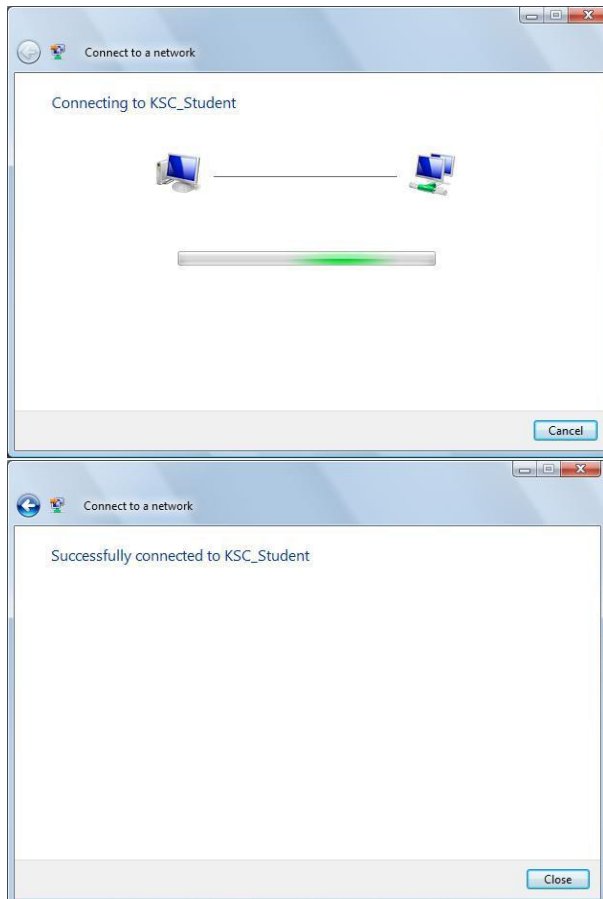

2. This will open up the Connect to a network window and display all available broadcast networks in range of your wireless network card.

3. Select the **KSC_Student** network and then click **Connect**.

4. Windows vista will indicate it is connecting to **KSC_Student** and if the connection was successful.

You are all done! Now when you are in range of the KSC_Secure network you will automatically connect. No more configuration is needed.

If you have any questions concerning this or any other technology issue, please contact the HelpDesk at 358-2532, email helpdesk@keene.edu or stop by our office on the 2nd floor of Elliot Hall.
