Emergency Action Plan

Purpose

This plan has been put together to provide direction to employees in the case of a critical incident. A critical incident is defined as an event that disrupts the everyday life of the campus or poses a threat to the safety and well being of campus community members. Critical incidents may range from the tragedy of a student death to a situation threatening the public perception of the College to the threat or reality of a natural disaster. A critical incident is a situation that requires an immediate and coordinated action from the College.

It is each department's responsibility to develop a department specific Emergency Action Plan. At a minimum, the plan must involve annual training on how to evacuate in the event of an emergency, and where designated meeting locations are.

Additional rules that apply in an emergency are:

- In the event of a medical emergency (for example - but not limited to - loss of consciousness, chest pain, severe cut/laceration, uncontrolled bleeding, alcohol poisoning, broken bone, etc.), involving a student, visitor, Keene State employee or contractor, please contact 911 immediately. Health Services would be the appropriate referral for a student with a non critical need for medical care during the hours of 8 AM - 4:30 PM.

- In the event of a fire, large chemical spill, or any incident where immediate emergency medical attention is needed, please call 911 immediately! If you are not sure outside help or medical attention is needed, contact Campus Safety at 8 2228. In the event of a motor vehicle accident, small gas spill, or small chemical spill, contact Campus Safety at 8 2228.

- An employee who experiences an accident or is injured while at work should report information about the incident immediately to his or her supervisor. If non urgent medical attention is required, Keene State
College worker’s pensation medical providers are either the Emergency Room at Dartmouth Hitchcock Keene or the Dartmouth Keene Clinic Occupational Health department.

- During any emergency event, if it is unclear on who to contact, contact Campus Safety.
