III. Guiding Principles

1. The Keene State College Department of Campus Safety is committed to enhancing the quality of life of the campus community by integrating the best security practices with state-of -the-art technology. The use of security surveillance is a critical component of a comprehensive security plan.
2. The primary purposes for the use of security surveillance technology are to deter crime, investigate crimes and policy violations and identify involved parties, and to assist Campus Safety in protecting the safety and property of the college community.
3. Monitoring for security purposes will be conducted in a professional, ethical and legal manner. Personnel involved in the use of equipment will be appropriately trained and supervised in the responsible use of this

Information obtained through video recording/monitoring will only be released when authorized by the President; VP of Student Affairs; Director of Campus Safety, or the Office of General Counsel, according to the procedures established in this policy. All recordings are the property of Keene State College.

The College prohibits video monitoring based solely on specific characteristics and classifications (e.g., race, color, religion, sex, age, national origin, marital status, veteran's status, sexual orientation, or disability).
6. Video monitoring of areas for security purposes at the College is limited to locations that do not violate the reasonable expectation of privacy as defined by law. Such areas include private office spaces, classrooms, restroom facilities and locker rooms, except for legitimate purposes such as investigations of criminal activity.
7. Campus Safety Officers are prohibited from using and/or disseminating any information acquired without the expressed permission of the Director of Campus Safety or designee. All information and/or observations made in the use of CCTV or voice monitoring equipment are considered confidential and can only be used for official College and law enforcement business upon the approval of the President, VP of Student Affairs; Director of Campus Safety; the Office of General Counsel or by court order.
8. Except as indicated below, all video camera installations will be visible. Under no circumstances will "dummy" cameras be used.
9. The equipment used by the College does not normally possess the capability of recording sound however, in cases where sound is recorded, appropriate notice will be provided either by posted signage or by telephonic notice.

In an effort to combat these problems, either by deterring the activity or apprehending violators, the College may use video equipment for covert surveillance purposes. As previously noted, the cameras will not be installed in any area that would violate the reasonable expectation of privacy as defined by law. No further announcement will be

made prior to the actual placement of video equipment.
