In order to continue processing your financial aid application, the Financial Aid Office needs additional information regarding the value of your family’s assets. We are requesting this information because (1) you were allowed to skip this section or not fully complete it on your FAFSA, and it is now required for us to complete verification OR (2) information we have indicates that you and/or your family may possess one or more of these types of assets. For this reason, you are required to complete and return this form. The Department of Education asks us to verify this information and gives us the right to request any of the below to do so.

The federal formulas for calculating the Expected Family Contribution include the Net Worth (current market value - debt) of the following items:

1. Investment Real Estate other than the family’s primary residence including: rental property, land, second or summer homes, and multiple-family dwellings (not including the portion that your family lives in).
   Please Note: The current market value of these investments may be determined using appraisals, tax assessment notices, statements from mortgage companies, real estate agents, halls of records, or copies of promissory notes for which the property was used as collateral.

2. Other Investments including: stocks and bonds, money market funds, mutual funds, certificates of deposit (CDs), installments and land sale contracts, other securities, and trust funds. Also includes qualified educational benefits or savings plans and 529 prepaid tuition plans.

3. Investments DO NOT include: the home you live in, the value of life insurance, retirement plans (401[k] plans, pension funds, annuities, non-education IRAs, Keogh plans, etc.).

Complete the following information as of the day you completed your Free Application for Federal Student Aid (FAFSA). DO NOT LEAVE ANY FIELD BLANK. PLEASE ENTER “0” AS NEEDED.
