Data are presented according to the date tests are administered. Test results include only positive and negative results for KSC Students and Employees. Fall 21 testing data includes results received by 10/8/2021. Weekly new cases for Cheshire County and the City of Keene are sourced from the NHDHHS website for the week corresponding with the surveillance period. Exact counts are suppressed for municipalities with 1-4 cases. The weekly surveillance period runs from Monday through Sunday.
