Employee	8,903
Student	34,667
Total	43,570

Surveillance testing data includes cumulative results reported from Quest Diagnostics from 9/2/2020 forward. Pre-Arrival testing includes results from Quest Diagnostics and UNH rapid testing between 7/17/2020 and 9/1/2020. Data are presented according to the date tests are administered. Test results include only positive and negative results for KSC Students and Employees. Testing data includes results received by 11/25/2020. Weekly new cases for Cheshire County and the City of Keene are sourced from the NHDHHS website for the week corresponding with the surveillance period. Hospitalization data reported to KSC by Cheshire Medical Center. Exact counts are suppressed for municipalities with 1-4 cases. Pre-arrival testing data amended 10/27/2020, to correct a single false positive result.
