

The STEPS Program

STEM Transformational Experiences to Promote Success

Supporting biology and chemistry students to graduate with experience and skills to succeed

Are you interested in science? Skilled STEM professionals are in high demand! A bachelor's degree in biology or chemistry, plus real-world experience, will set you on the path to a successful STEM career.

The STEPS Program provides financial, academic, and career preparation support for eligible students - take STEPS toward a great future!

Four-year scholarships

- **Up to \$8000/year** (in addition to other financial aid)
- Available to financially eligible students

Internships

- Local STEM industries
- Gain valuable experience in a work setting

Career Preparation Skills

- Prepare for your future
- Workshops on job searches, resume building, interview skills

Grad School Preparation

- Letters of recommendation
- Grad school applications
