## Factbook 2002

### Academic Programs by Class Arts and Humanities Division

\* Previously the specialization codes were not counted individually. As a result, some of the numbers cannot be separated into a specific specialization.

\*\* When a student declares a second major, occasionally the option/specialization is not known. In those cases, it is listed separately as a second major under the general department.

*The options in italics are no longer offered but will continue to reflect the number of students that are "grandfathered" into the programs.*

**Professional Studies Division**

\* Previously the specialization codes were not counted individually. As a result, some of the numbers cannot be separated into a specific specialization.

\*\* When a student declares a second major often the option/specialization is not known. In those cases, it is listed separately as a second major under the general department.

The options in *italics* are no longer offered but will continue to reflect the number of students that are "grandfathered" into the programs.

**Keene State College  
Factbook 2002**

**Senior Survey 2002  
Summary**

Each year since 1990, Keene State College has administered a survey to its graduating students. In the past, this survey has been done at graduation rehearsal, which was typically held the day before graduation. In 2001, graduation rehearsal was eliminated, so students turned their surveys in to the Bookstore when they picked up their caps and gowns. In 2002, copies of the survey were mailed to all students, e-mails with links to the survey were distributed, and copies were put on the college's web site. The survey cover letter told students that they were "expected" to return the survey before receiving their cap and gown. The bookstore staff handed out blank surveys to students who did not have one filled out, and insisted upon its return before giving the student their cap and gown. In total, 683 surveys were returned, a response rate of 95%. This is the highest response rate ever received on the Senior Survey, which typically have a return rate of between 40-50%. Last year only 246 surveys were collected, a return rate of 25%.

Degree	All Graduates	Senior Survey	% Respondents
Associate's	73	56	77%
Bachelor's	710	647	91%
Master's	36	9	25%
<b>Total</b>	<b>722*</b>	<b>683*</b>	<b>95%</b>
* unduplicated totals			

*Some noteworthy facts from the survey:*

### **Satisfaction**

There was a slight decrease in satisfaction of graduates over last year. Eighty-four percent of the students graduating in 2002 said that they were satisfied with their education, down 4% from last year's survey. Unhappiness with their major was the primary reason for dissatisfaction. Sixty-eight percent of the students felt that they would still attend KSC if they could start over, down 7% from last year's survey. The most frequent reason listed for not wanting to attend again was the desire to attend a larger college or a college in a larger city.

### **Plans**

Forty-two percent of the respondents plan to work full-time in the fall. This figure fluctuates each year with the national economic and employment figures. As expected, full-time employment figures are down 10% from a high of 52% in 2000. Many students now complete the Senior Survey earlier in the spring semester, so the difference in timing might have an effect on employment numbers. Correspondingly, the percentage of students seeking employment is up (55% compared with 45% last year).

Keene State College  
Factbook 2002

Senior Survey 2002  
Summary

**Plans (continued)**

Liberty Mutual Insurance, National Grange Mutual Insurance, New Hampshire Ball Bearing, and Portex, Inc. continued to be the top employers. With the events of the 2001-2002 academic year, it is not surprising that for the first time, the United States Army employed the greatest number of our graduates (4).

**Graduate School**

The number of students planning to go to graduate school increased very slightly to 10.4% from 9.8% in 2000 and 2001. This is the highest rate of graduate school attendance in the past seven years. Figures for graduate school enrollment typically range between 8.5% and 10.5%. While many students are remaining in New England to attend school at KSC, UNH, Assumption College, and the Boston Architectural Center, some are traveling a significant distance. This year students are pursuing their education at institutions as far away as University of Colorado at Boulder, the University of Minnesota, and California State at Pomona.

**College Services**

One section of the Senior Survey asks students to indicate how they feel about various college policies and services. Slightly more than 81% of our students agree that, "faculty at Keene State are concerned about student learning and development." The majority of students (66%) agree, or strongly agree, that a general education program should continue to be required by the college. Evaluating this section as a trend shows that an increasing number of students feel that "a general education program should continue to be required".

More students than ever before (67%) agreed, or strongly agreed, that the advising system in their major served them well. However, there were many comments in the open-ended section suggesting improvements in advising, such as, "advisors need to make more time for their students," "better academic advising" is needed, and more guidance for transfers. Many felt that there was a lack of help for first-year and sophomore students. A new plan for freshmen advising was put in place last year, after these students were already upperclassmen. The most frequently occurring comment addressed a need for career advising for students who are graduating.

**Evident Gains**

Students feel their education *moderately or greatly enhanced* their capacities to: "gain in-depth knowledge of a field" (89.0%); "function independently without supervision" (83.9%); and "acquire new skills and knowledge on my own" (86.1%). There is a large increase in how well students feel they were prepared for graduate school -- 64% of students felt their skills in this area were moderately or greatly enhanced, compared with only 54% last year.

Keene State College  
Factbook 2002

Senior Survey 2002  
Summary

**Evident Gains (continued)**

The survey questions in the "capacities enhanced" section were changed slightly this year. One of the new questions which received a particularly positive response was the "appreciation of importance of personal responsibility", which nearly 82% of graduates felt their education either *moderately* or *greatly enhanced*.

**No Enhancement**

Students most often report *no enhancement* in their capacities to: "read or speak a foreign language" (50.2%, improved from 54.9% in 2000). In looking at "activities engaged in by students in the past year", 35% of our students report *almost never* remaining on campus for the weekend (up from 32.5% last year), 30.5% *almost never* read a book not related to their current classes, and 59% *almost never* used interlibrary loan (up from 57% last year).

**Valuable Courses**

The "most valuable courses in the major" as chosen by the students, seem to relate closely to careers within a major. Typically, education capstone classes top the list, which is not unexpected due to the large number of education students KSC graduates each year. For the past six years, Student Teaching has been rated the most valuable class. This year, it was replaced by Methods classes. This is the first year that Business Policy has not been among the top ten, although Social, Legal, and Political Environments of Business was ninth. Organization and Administration of Safety Programs has been mentioned every year. Psychology and Communications classes are listed more often as their majors continue to grow in size. Among the "most valuable general education courses," students typically find English Composition, which is required for all students, the most valuable. In addition, General Psychology, Sociology, Introduction to Art, and Communications courses are frequently mentioned.

**Comments**

Two questions ask students what should be changed and what should not be changed at KSC. The responses to these questions over time reveal a history of the college. Complaints about faculty gave way to concerns about faculty being underpaid during the 'work to rule' contract dispute of the early 1990s. Negative comments about spending too much money on aesthetics in the mid-nineties were replaced by rave reviews of the new Student Center in the years following its construction. As the Dining Commons vendor changed, complaints about food quality changed to requests for more seating. On the other hand, some themes have remained constant throughout the years. Faculty, Greek Life, and the look of the campus always receive numerous compliments. Parking and availability of classes have been constant concerns.

**Keene State College  
Factbook 2002**

**Senior Survey 2002  
Summary**

**Comments (continued)**

This year more students than ever before took the time to respond to the open ended questions. Over 400 students answered one or both questions, compared with fewer than 200 last year. There was also a dramatic increase in the time and thought put into the questions. In several cases, students even included additional pages.

**What Should Not be Changed**

Faculty were most often mentioned in response to the question 'what do you feel should not be changed'. Fourteen percent of the respondents mentioned their satisfaction with the quality of the faculty and their relationships with them. The campus atmosphere and grounds, including the size of the college, was next, with ten percent. Specific academic departments and majors, the class size, campus activities and events, and general education requirements were all mentioned frequently with approval.

**What Should be Changed**

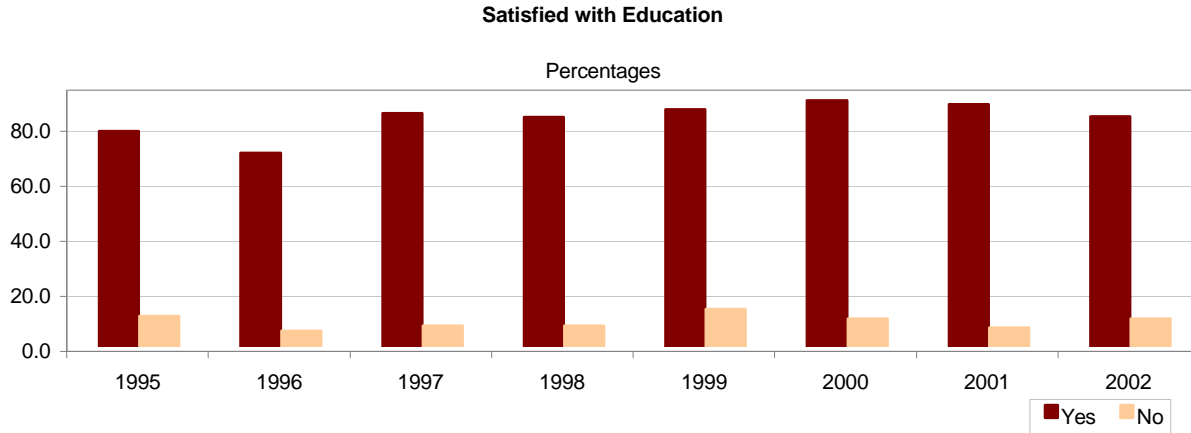

Complaints about academic departments and majors topped the list of things students felt should be changed. Most frequently mentioned was the lack of funding spent on expanding and/or strengthening departments in which the students were majoring. There was a five percent increase in responses in this area compared with last year. Dining Commons, food, and eating facilities also showed an increase over last year, comprising 7% of the comments compared with only 4% last year. Eight percent of the comments mentioned parking, compared with 12% last year.
